

Theophilus Noel Was Once Rocked in a Sugar Trough

To be born in a log cabin and rocked in a sugar trough and now living in the luxury made possible by millions, is the history of Theophilus Noel Berrien Springs, who will entertain Michigan and northern Indiana newspaper men at a banquet Saturday at the Oliver hotel. Mr. Noel was at one time himself a newspaper man and still loves the "game".

He welcomed an interview when visited at his home and told the story of his truly eventful life.

Born in Cabin.
He was born near Berrien Springs in "the bend of the river", July 3, 1841, in tall timbers, in a log cabin, on a puncheon floor, and rocked in a sugar trough.

He went to Texas when he was 11 years old and became a ranger in the Indian wars under old Rip Ford. He is today the only living man who has a Comanche Indian arrow mark on his side.

He was a Confederate soldier from start to finish but not of his own liking. He went with his people and stayed with them until the end and quit all sorts of rebellious dispositions and started in business; made more than one fortune in the up-building of his country.

"He is the oldest advertising agent living having commenced the business in 1854 in Richmond, Tex. His experience in this line of business, in war, in railroad building, in mining, in farming, as well as in love affairs, has been as broad as the experience of any man of his age."—73 years—excepting perhaps Lucky Baldwin of California, with whom he was once a partner. Mr. Noel puts it, "Why I have been a lover all my life. I love God. I love nature. I love all that is good and pure in humanity. I love the fields, the forests, the streams!"

When he dies he expects to go where love songs are only sung. He

says if he were to give away too much to reporters, he would have nothing to sell when his new book, "An Old Man's Love Story", is published.

Mr. Noel has but one son, Dr. Joseph R. Noel of Chicago and who will inherit all his worldly possessions. He is president of the North West State bank in that city and of Mr. Noel's medicine company, and the father is justly proud of the son and his achievements.

Mr. Noel is a Mason and was the founder of the "Old Folks" Masonic home in Illinois.

No Forked Tongue.
Having been raised in the woods and of a self-torn of mind he is of an erratic character and because of his praising a man today and boasting him, and giving him all sorts of money is no evidence that he will not be cursing him tomorrow if a wrong is done him and the one he sought to benefit has betrayed him.

He is no two sided man, he never talks with a forked tongue. He talks to friend and foe alike with a straight eye and a determined decision.

He had one wife—loving, honorable, pure. He acted the old fool, he admits himself, and married again and got one who cost him a fortune. However he proposes to do it again and depends on Providence to give him if not the first, a split between her and the other, as he is not content with the living of a life "worse than a hermit in hell", as he says.

Many a man not 30 years as old as he is not younger in activities, deeds and hopes for the future he declares.

Mr. Noel is very hospitable and is never so happy as when his home, "Noel Range" is filled with friends all having a good time.

Mr. Noel for a long time was the publisher of two daily newspapers and four local papers. He has always been a printer-man.

REHEARSALS TO BEGIN

Y. W. C. A. to Start Work for Foreign Pageant Monday.

Work on the "Foreign Association Pageant" to be presented by the Y. W. C. A. Choral club in November will be begun Monday evening under the direction of Prof. W. P. McHenry. The pageant will depict Y. W. C. A. office scenes in China, Japan, South America and India with one character representing the "spirit of the association" hovering over all. The affair which will be unique in every detail, will be held in the gymnasium at the Y. W. C. A. and the proceeds will be used for missionary work in South America. Membership in the choral club is open to all members of the association.

THE THOUSANDTH WOMAN
BY THE AUTHOR OF RAFFLES ETC.

THIS is the story of one woman in a thousand and who never for a moment lost her splendid loyalty to her lover and her friend, though all the evidence in the world seemed dead against him.

It is one of the greatest mystery stories, because it is so much more—a story of character so strongly arousing the reader's sympathies that he hangs with breathless suspense upon the fate of the man and the woman whom he understands thoroughly and likes immensely.

The Thousandth Woman is tense, compact, full-blooded, strong in its love story.

**Not a Dollar Need Be Paid
Unless Cured**
I CURE MEN AND MEN ONLY.

THE FOLLOWING ARE THE DISEASES OF WHICH I HAVE CURED SO MANY MEN; PERHAPS MORE THAN ANY OTHER SPECIALIST.

**"914" FOR BLOOD POISON
CURES TO STAY CURED**

The new German treatment is the remedy that you should demand when suffering from this loathsome condition. For years, even ages, doctors have been treating this curse on humanity by administering drugs and poisons. The old-time method was purely empirical, it being almost entirely based upon what the doctor concluded to use on his patient. The treatment in many instances being more injurious than the disease itself, causing the germs to be bottled up in the blood. The New German Remedy "914" Neosalvarsan, is truly scientific and has done more to relieve sufferers from this disease than any other discovery of this or any other age. Neosalvarsan or "914" as it is generally known, is so called as the result of the nine hundred and fourth experiment made by its inventor in order to perfect his formula. It will kill the so-called spirillic germ instantaneously.

The medical profession on both sides of the Atlantic have become a unit regarding its use and its power to absolutely exterminate the scourge. It is my custom to keep abreast of the times in everything that is for the good of my patients, accordingly I have installed (according to the German method) the most elaborate "914" laboratory in the middle West, and am thoroughly prepared to administer this scientific treatment according to the most approved methods of its discoverer.

In the majority of cases it is only necessary for the patient to remain under my direct personal care for a few hours, after which he can go to his hotel, business, or home with a feeling of relief such as sufferers from this disease never dreamed.

Nearly two hundred patients have been cured in one American city by this improved treatment, and not one relapse has been encountered. Consult Dr. Fleener FREE regarding this triumphal advance in Medical Science. He is a Specialist on Blood, Nerve and Skin Diseases, and you should learn the truth about your condition. I invite you, dear reader, to come and have a heart to heart talk with me. I assure you in advance of satisfactory results. My fee will not be one cent more than you are willing to pay for a complete cure. Do not submit to the use of dangerous substitutes or inferior treatment for Blood Poison.

Remember, that "914" is the improved "906" and Professor Ehrlich, the originator and discoverer of these remedies, declares that "914" is more soluble, reducing the possibility of induration; is decidedly more effective and may be injected without harm or pain in other parts of the body than the veins.

No Pain, Return Home Same Day.

Giving a patient Neo-Salvarsan, "914," Prof. Ehrlich's New German Remedy for Blood Poison. This is the intravenous method, directly into the blood, the only way it should be given.

Extract from letter of Prof. Ehrlich:

"Judging from all the reports received by me, it appears that the intravenous injection is to be preferred to all other modes of administration, this method of administration will prove an obstacle to the introduction of the remedy in general practice, on account of certain technical difficulties. I believe that the interests of the patient demand that only the most efficient form of treatment should be decided upon."

"I should feel much obliged to you if you will—as heretofore—assist me in this direction, and in the future employ as much as possible the intravenous mode for the administration of the remedy."

(Signed) F. EHRLICH.

Thomas A. Edison, the great "electrical wizard," says: "The German discovery for the cure of Blood Poison is the most important achievement of the year 1911—and that most of us have the disease and do not know it."

I guarantee a painless and safe treatment, giving the Genuine German Remedy according to the great German professor's latest instructions.

MY METHODS appeal to those who THINK and who want the benefit of the LATEST SCIENTIFIC PROGRESS that drives DISEASED GERMS out of your body. My advice is FREE and valuable, whether you are treated or not. If you want help, make your way known to an HONORABLE SPECIALIST. No matter about money. COME if possible. IT'S BEST. I will explain to you my treatment for Varicose Veins, Nervous Debility, Blood Poisons, Kidney Diseases, Bladder Troubles and other diseases of mankind.

I also cure Rupture, Rheumatism, Piles, Fistula, Kidney and Bladder and Prostate Diseases, Blood Poison and all other Men's Diseases quickly, permanently and without pain or loss of time. Examination free. Begin treatment now—today. All letters promptly answered.

PICTURES CHANGE IN LAST THIRTY YEARS

In his talk on "Thirty Years of Improvement on the East Side," before the Perley Civic club at the Perley school Friday night, Judge Timothy E. Howard gave a most lucid summary of the development and growth of that section of the city. He dwelt at length on the various means by which a community can by consistent effort make itself one of the feature spots of any city, and his talk was most interesting to the assembled members. Giving first the state of affairs in that section 30 years ago, he traced each major improvement, and the backers, down to the present.

Among the more interesting things brought up in his speech, he said: "Always have I encouraged the movement that all citizens of any section stand together and work for the general good of their community. That has been the case in our section of the city, and its appearance stands as evidence that the plan is not the worst that can be followed. For instance, where you today see a beautiful park, 30 years ago the land was filled with swampy ground and heavy marsh. Where today we have one of the largest manufacturing plants in the northern part of the state, in those days there was nothing but shrubbery and swamp. We have beautiful new bridges, a splendid street car system, and a plan of sewerage that is far above the average."

Judge Howard closed his talk expressing the desire that the citizens of all the districts get together and pull for improvements as soon as the need of them made itself apparent.

Miss Margaret Perley assisted in the program with a vocal solo, and there were selections by the Lowell High School quartet.

BOARD OF WORKS MEETS

Several Important Improvements Confirmed After Hearing.

The board of public works held a busy session Friday evening at the city hall. The following resolutions were confirmed: Blaine av. pavement, the assessment role on the Vine st. pavement; the Main st. water connections; the Indiana st. trunk sewer, and the assessment roll on the Kimball av. pavement. The hearing on the assessment roll for the grade, curb and walk on Medora and Missoula av. and the pavement on Oak-side av. were deferred.

MISS XENIA SWAN IS MARRIED AT NEW ORLEANS

Mrs. W. M. Swan Says Wedding of Her Daughter Was Surprise to Her.

Announcement was made Friday night by Mrs. W. M. Swan, 319 E. Monroe st., of the marriage of her daughter Xenia, Oct. 14 at New Orleans to Oille Hodges. According to Mrs. Swan she received news of the marriage the day following, but it came as a complete surprise to her and that she has withheld the knowledge pending the receipt of a letter containing full particulars of the wedding. As yet Mrs. Swan stated she has not received the letter.

Mrs. Hodges is a vaudeville actress having been on the stage for the past nine years. According to Mrs. Swan, Mr. Hodges is an accomplished violinist and also reported to be the son of a wealthy New Orleans cotton broker. Miss Swan has been in New Orleans since April. She made her home with Mrs. Swan's brother, Laurel Hunt.
